## Upcoming 2014 Stories

\*\*Equinox here. I'm just posting these story ideas so I can bring all of my focus on studying for this upcoming final test. I should be able to write these stories around the beginning of May. Thanks for waiting. \*\*

\*\*Of Dragons and Men: \*\*Hiccup and 'Legs are traveling to the other neighboring islands after 'The Event' decimated Berk. A minor calculation costs Fishlegs his "knowledge" and inadvertently his tribe. It's a wonder why Hiccup is staying with him after what he did to the Haddock family. Inspired from the great book 'Of Mice and Men'.

\*\*Muscle Milk Boy: \*\*The start of Frankie's (Fishlegs) senior year couldn't be any crazier than the usual teenage story. With his odd best friends, Teddy (Tuffnut) the eccentric book reader, Cameron (Camicazi) the blunt dramaturg, Frankie will have to survive the supposed 'the greatest year of high school'. That is, if he can deal with the popular group. Each individual of the 'group' finds a way to mess with Frankie. With all the action surrounding him, Frankie just might be able to make graduation. All he needs to do is stomach the Muscle Milk. No biggie.

\*\*Stone and Porcelain: \*\*What if boys/men weren't emotionally made of stone? And what if girls/women weren't as fragile as porcelain? The rival islands of Bog and Berk send their next in line to figure out a treaty to defeat the greater enemy. Terrifyingly-scaled flying fire-breathing dragons. Hiccup from Berk and Astrid of Bog Isle. It's up to these two heirs to somehow work together for their home and future. Inventive, eccentric Hiccup. Passive-aggressive Astrid. Drama, action, and humor. The big three.

\*\*Bleach/Naruto crossover: \*\*The Fourth Hokage summoned the Shinigami

to seal the Kyubi. The Third Hokage called him to seal Orochimaru's ability to use jutsu away. Most speculate that this is an epic feat. But what if there wasn't just one almighty Shinigami? But hundreds, thousands! Each with the power to fight by their summoner's side in battle. But this great skill doesn't come without cost. Like any summoning, one has to prove themselves. The question is, how did that kid, Uzumaki Naruto, get the wildcard of them all? \*\*Equinox: "I dare one of you to start singing the theme song of \*\*\_\*\*Pokemon\*\*\_\*\*â€|"\*\*

\*\*Bleach/Skyrim crossover: \*\*Everyone's heard of the appalling stories originating from the Gotei 13. Here's one tale of many. The day the Captain Commander, GenryÅ«sai Shigekuni Yamamoto, ordered the genocidal execution of the inventive Dwarves for their crime of holding souls into gems for their shameless experiments.

\*\*EquinoxKnight01: "Alright, now that that's out of the way, I can focus. Like I said, early/middle May is when I'll start working on these. Hopefully with a beta-reader for everyone's sake." \*\*
